

Ahearn & Soper offers specialized products and helps you raise the bar on Healthcare Efficiency and Patient Safety!

Patient Safety

How can you ensure patient safety?

Healthcare professionals often work in hectic, high-stress environments. When equipped with ALL the solutions that Ahearn & Soper can offer - whether it be patient identification, security, admitting, patient data and much more - you can leave that extra worry behind.

Would it benefit patient care if your medical staff could always count on having current vital sign information?

Our solutions communicate with smart monitoring devices to automatically populate data fields or they easily accommodate manual entry of data from other sources. Either way, the data can be automatically transmitted to your EMR, so everyone concerned has real-time access to essential information.

The results?

Enhanced staff productivity, reduced chance of errors and more timely response to patients' needs.

Healthcare Solutions

Healthcare Solutions

Call Ahearn TODAY to Devise Solutions for Healthcare with State-of-the-Art Technology!

Innovative Technology Right in the Palm of your Hands!

Gone are the days when Doctors were armed with information they would need for a lifetime of practice. Today, handheld mobile computers replace large stationary computers to deliver information **on time** to those who must apply the knowledge. These mobile computers greatly enhance the ability of Healthcare Professionals to access data **ON DEMAND!**

Ahearn & Soper provides Mobile Applications in the areas of:

- Medical Supply Management
- Prescription Ordering
- Medical Records/History
- Patient Management
- Asset Tracking
- ... Plus Many More!

Get a handle on Patient Care with devices that are specifically engineered for use in healthcare environments. Designed to simplify workflow and improve efficiency, they allow Doctors and Nurses to do everything they need to do during a regular shift - **right in the palm of your hands** - even while you are on the go!

Mobile Workstations at your Bedside

HAVE access to **Real-Time** information and spend more time at a patient's bedside with a highly sophisticated workstation that is designed to easily integrate with emerging technologies, and give hospitals the flexibility to use one workstation for numerous applications. These workstations are designed with healthcare professionals in mind, increasing patient satisfaction and reducing errors.

Label Solutions for Healthcare

Ahearn & Soper is your source for Label safety. Putting the right label on an IV bag or blood bag is critical to ensure patient safety. Our labels are optimized to provide the highest quality bar codes and our materials are carefully selected and tested to meet the print durability and adhesive safety standards in the healthcare industry. Our labels are durable under extreme conditions and easy bar coding and scanning allow for easy reading, therefore drastically reducing human error.

- Blood Bag & IV Bag Labels
- Slide & Test Tube Labels
- Wristbands & Labels
- Tri-Labels
- Medical Record Labels
- Inventory Labels

Service & Support

Our comprehensive maintenance and support services are designed to satisfy the requirements of the most demanding environments. We provide On-Site Service as well as Depot Repair Service. Service is available either on an annual service agreement basis or on a 'time and material' pay as required basis. Either way, our factory-trained and certified specialist will consistently provide you with dependable, timely service that exceeds your expectations!
