

## Label it RIGHT! EVERY time ... ALL the time!

**Ahearn & Soper** can provide you with advanced and reliable labeling machinery. No matter what your requirements may be, we can engineer custom labeling systems that perform reliably under extreme conditions. Our factory-trained and certified specialists will also ensure that your system is properly installed and maintained so that it performs to your business needs. We are the primary source for installation, after-sale service, and spare parts purchases.

Whether you need to print and apply labels, or to apply pre-printed labels, Ahearn & Soper use the most advanced technology available to get the job done right **the first time!**

### Labeling Solutions

- Print and Apply
- Product Labeler
- Barcode Labeler
- Sleeve Labeler
- Pressure Sensitive Solutions
- **PLUS MORE!**

Look to **Ahearn & Soper** for ...

**Reliable and Cost-Effective Labeling Solutions!**

### Print and Apply

- On-demand printing eliminates pre-printed labels
- High quality thermal printing
- Choice of print engines
- Several methods of application: Straight tamp | Two-panel tamp | Vacuum Blow | Roll on, etc.
- Ideal for labeling pallets, cartons, cases, packaged goods, etc.
- Print at any angle using tamp, tamp-blow or air-blow technology

### Automatic Applicators

- Print and apply labels on various height pallets
- Large thermal transfer labels applied to newsprint rolls
- Print, apply and laminate labels
- Apply labels in hard-to-reach places
- Offline bag labeling systems

### Custom Labeling

- Rapidly and accurately apply pre-printed labels
- Ideal for applying promotion labels, tags, prime labels, etc.
- Non contact labeling of fragile products
- Custom application heads for unique products
- Bottle wrap pressure-sensitive labeling systems
- Front and back pressure-sensitive labeling systems

## Custom Programming & Engineering

With **Ahearn & Soper** software solutions, you can take advantage of leading edge technology for all your Data Collection needs and feel confident that your Implementation will be a success.

Our System Specialists have extensive knowledge and experience with complex software and hardware interoperability issues and can free you of this burden that can cause any project to grind to a complete halt.

**Ahearn & Soper will not only provide 'peace-of-mind' but complete support for your solutions today and for many years to come.**

## Wireless Site Surveys & Analysis

For RF and RFID Systems, many considerations about the application must be factored in. We can provide you with valuable services such as Facility Analysis to ensure proper performance, redundancy and network security. Ask us how we can help you overcome RF network issues including Facility Size, Product Storage, Racking, Machinery, Noise/Interference, Layout, Number of Users and Throughput.

**Ahearn & Soper** will maintain backbone and client device documentation so future technical support calls are more productive.

**The site survey will ensure your project completes on time, on budget and with no costly surprises.**

## Professional Service & Support

**Ahearn & Soper** takes full responsibility for the solutions we deliver, including post sales service, support and supplies. Over 80% of our employee workforce are factory-trained, certified specialists and technicians. We also offer vital services such as Call Centre Support, Remote Monitoring Service and Technical Training and Support for mission critical applications.

AirMagnet Survey Signal Analysis

## Project Management

Our Project Management Team can take your Auto-ID / Data Capture project from the requirements analysis and planning stage to the development, documenting, testing and installation phase. Once installed and users are trained, a 'go-live' date can be scheduled for full deployment.

**We ensure all requirements and deadlines are met to your satisfaction.**
